

ChamberCare

Small-business coverage with big-business benefits

Nearly 60 percent of the millions of uninsured Americans are employed by small businesses.

The high cost of health care is an added pressure to small business owners as they search for ways to make their businesses thrive. To help address this challenge, the Asheville Area Chamber of Commerce and WellPath are teaming up to bring a new health plan to Chamber members—ChamberCare.

An added benefit for ChamberCare members is free access to Crescent’s personal health analysis, a service not usually available with small business insurance plans. This completely confidential service provides ChamberCare members the opportunity to get an annual assessment of their health, along with personalized advice for reducing the risk of common health issues and clinical assistance with management of diseases such as high blood pressure and diabetes.

ChamberCare gives small-group employers an opportunity to offer an excellent comprehensive health benefits program similar to those often offered by larger employers with special wellness features along with:

- Affordable premiums
- Access to the Crescent PPO locally-based network of doctors, hospitals and other healthcare providers, as well as the Crescent Health Management program.
- A choice of 30 plan designs
- Special wellness benefits featuring the Crescent HealthC.A.R.E. unique personalized health risk assessment and improvement program.
- Outstanding claims administration and member service

Crescent

Western North Carolina’s largest network of healthcare providers

ChamberCare is an exciting example of Crescent’s continuing commitment to the vision of promoting collaboration between local employers and healthcare providers to improve the health of all the citizens of Western North Carolina.

By combining Crescent’s healthcare provider network, health management services and outstanding local customer service, with the Asheville Area Chamber of Commerce and WellPath, we are able to offer Chamber members unparalleled access to affordable, high quality healthcare.

WellPath

A proven record of service in North Carolina

With offices in North Carolina and South Carolina, WellPath provides members with comprehensive and responsive service in the same state we all call home. WellPath offers a full spectrum of health benefits products to employer groups and individuals. WellPath has had a presence in North Carolina for more than 12 years, and the company currently serves more than 160,000 people in the Carolinas.
