

ASHEVILLE 5x5

Interim Metrics and Economic Impact Analysis (FY 2015-2019)

THE MAJORITY OF SECTORS IN THE LOCAL ECONOMY ARE BOOSTED AT SOME POINT BY THE EDC AND PARTNERS' STRATEGIC JOB CREATION EFFORTS.

Since the launch of the first AVL 5x5 strategic plan in 2010, the EDC has announced 3,912 new jobs and \$1.2 Billion in new capital investment in Buncombe County. Through the challenges of recessionary years to the momentum of economic recovery that followed, your investment in the work of the Economic Development

Coalition has strengthened the economic confidence of the region, and expanded economic opportunity for our residents and families. It took the collective support of our City and County leadership, more than 85 private sector investors, and numerous community partners, as well as the determined focus of the EDC staff and board, to achieve these results.

In 2015, local leadership doubled down on the strategies of the initial AVL 5x5 with the Vision 2020 Plan; expanding our key industries, recruiting high potential new employers, and catalyzing strategic growth in our entrepreneurial sector through the innovative programs of Venture Asheville. In the interim 5 years, our region has led all regions of North Carolina with GDP growth topping 37% (2012-2017) and manufacturing jobs growth of 17% (2013-2018). Your meaningful investment of time and financial resources demonstrated to our region and to our state that effective public and private sector partnership could move us forward in Western North Carolina.

As we build on this strategy over the next five years, our community relies on your continued support and leadership to keep the momentum alive. With changing times come exciting new opportunities as well as serious challenges to our capacity to build the future we want for our current residents - and our next generation. We invite you to join us again in investing in the shared vision of the AVL 5x5 2025 Plan, and a more prosperous future for all families and neighborhoods of Buncombe County.

Advanced Manufacturing

Science & Technology

Talent Development

Entrepreneurship & Innovation

AVL 5x5 Overview:

In its second five-year iteration, the AVL 5x5 Strategic plan for economic development continued to move the community forward with goals to diversify the economy and add jobs that pay higher than the county's average wages. Noting that the plan would focus on the region's greatest potential to affect positive change, goals advanced five strategic areas: Healthcare, Advanced Manufacturing, Science & Technology, Talent Development, and Entrepreneurship & Innovation. The plan recognized at the time that "the largest risk to the region is not a decline in jobs or economic activity but a failure to capitalize on new opportunities for economic development".

In Buncombe County:

As of October 2019 with eight months left in the plan, the Economic Development Coalition for Asheville-Buncombe County (EDC) provided significant (not exclusive) assistance in the attraction of two new companies and seven expansions generating 1,052 newly announced direct jobs. These new jobs will increase opportunity for both residents and the economy, going far beyond the companies and industries that created them. Industries that supply goods and services in the supply chain will be impacted, as will income generation for households and associated local spending. The majority of sectors in the local economy are boosted at some point by the EDC and partners' strategic job creation efforts.

- · Wages for new jobs announced spanned a broad spectrum with an overall average of \$48,317. An estimated 34% of jobs announced paid a wage greater than \$50K per year.
- In addition, new business and expansions announced \$179 Million in capital expenditures, including strategic investments in property, machinery and equipment.
- Once all jobs are in place, the Total Output, (Direct, Indirect, and Induced Effects) is estimated at **\$950 Million** in Buncombe County and is annually recurring.

Return on Investment:

The Return on Investment (ROI) helps further quantify the EDC's attraction and expansion accomplishments. These efforts have generated prominent local economic activity and investors have realized a positive return on investment.

· Including both private and public investments, the EDC estimates an overall return of \$35 for every \$1 invested over the course of the plan for new job announcement impacts alone.

Economic Impact Summary

| | Direct Impact | Indirect Impact | Induced Impact | Total Impact |
|--------------|---------------|-----------------|----------------|---------------|
| Jobs | 1,052 | 912 | 464 | 2,428 |
| Labor Income | \$50,828,570 | \$47,497,332 | \$18,675,873 | \$117,001,775 |
| Value Added | \$298,283,302 | \$70,816,232 | \$32,301,994 | \$401,401,528 |
| Output | \$755,046,295 | \$137,831,302 | \$56,975,215 | \$949,852,812 |

Additional Economic Activity: Construction

Not including labor impacts, new construction activity planned by Avadim Technologies and Haakon Industries was projected to be approximately \$38 Million combined. New construction includes site preparation, building construction, and interior installation such as machinery and equipment.

- · Construction activity is estimated to support an additional 475 jobs and \$22.8 Million labor income
- · Construction impacts are one-time impacts (for the life of the construction project)

For every 1 job created, an additional 1.31 jobs was supported in Buncombe County. For every \$1 of Labor Income earned, an additional \$1.30 is generated.

New Labor Income is Projected to Generate:

Disposable Personal Income
Deposit Potential for Area Financial Institutions

\$90,044,566 \$11,302,371

AVL 5x5 estimates **\$11,302,371** in additional deposit potential as a result of new labor income generated from economic impacts. Deposit potential is allocated in accordance with each bank's share of total deposits in Buncombe County.

Estimated Consumer Deposits in Local Banks

6 Asheville 5x5: A Five-Year Plan for Job Creation

ECONOMIC IMPACT

Business-to-business transactions resulting from new job announcements took place among the industries below. Incorporating a broad economic supply chain, activity included increased organizational management, wholesale, banking, real estate, trucking, attorneys, accounting, engineering, information technology, utilities, employment services, and other manufacturing.

Business to Business Transactions

The industries that benefited the most are as follows:

| Management of Companies and Enterprises | \$29,791,585 | | | | | | |
|--|--------------|---------|-------|-------|-------|-------|-------|
| Wholesale Trade | \$27,670,016 | | | | | | |
| Professional, Scientific, and Technical Services | \$18,660,848 | | | | | | |
| Information | \$11,259,463 | | | | | | |
| Administrative and Support and Waste Services | \$8,865,434 | | | | | | |
| Transportation and Warehousing | \$8,232,183 | | | | | | |
| Real Estate and Rental and Leasing | \$8,228,978 | | | | | | |
| Finance and Insurance | \$6,020,873 | | | | | | |
| Manufacturing | \$4,746,035 | | | | | | |
| Utilities | \$3,538,402 | | | | | | |
| Construction | \$3,041,384 | | | | | | |
| Other Services | \$2,525,891 | | | | | | |
| Accomodation and Food Services | \$1,479,780 | | | | | | |
| Arts, Entertainment, and Recreation | \$1,194,463 | | | | | | |
| Retail Trade | \$1,185,403 | | | | | | |
| Other Local Government Enterprises | \$547,234 | | | | | | |
| Postal Service | \$420,794 | | | | | | |
| Mining | \$290,420 | | | | | | |
| Agriculture, Forestry, Fishing, and Hunting | \$89,946 | | | | | | |
| Educational Services | \$21,992 | | | | | | |
| Local Government Passenger Transit | \$18,716 | | | | | | |
| Health Care and Social Assistance | \$1,460 | | | | | | |
| | \$6 | DM \$5M | \$10M | \$15M | \$20M | \$25M | \$30M |

Household spending resulting from new job announcements show income going towards housing, medical care, child care, banking, cell phones, eating out, retail purchases, purchases for gas and car maintenance, and education.

Household Spending

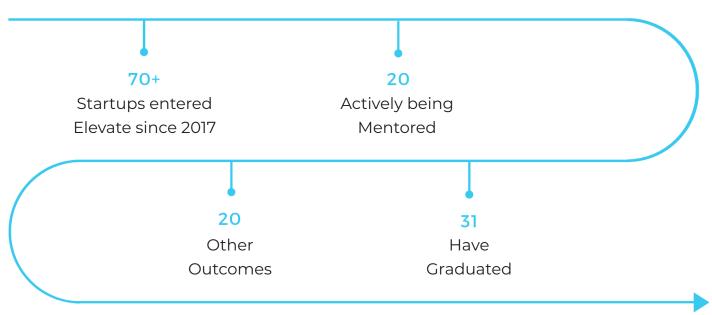

The industries that benefited the most are as follows:

| Real Estate and Rental Leasing | \$12,214,658 | | |
|--|--------------|--|--|
| Health Care and Social Assistance | \$11,389,575 | | |
| Retail Trade | \$6,892,526 | | |
| Finance and Insurance | \$5,069,448 | | |
| Food Services and Drinking Places | \$3,944,835 | | |
| Information | \$2,717,694 | | |
| Professional, Scientific, and Technical Services | \$2,445,869 | | |
| Other Services | \$2,257,687 | | |
| Wholesale Trade | \$1,988,682 | | |
| Administrative and Support and Waste Services | \$1,956,730 | | |
| Transportation and Warehousing | \$1,267,858 | | |
| Arts, Entertainment, and Recreation | \$1,190,690 | | |
| Utilities | \$841,794 | | |
| Construction | \$801,873 | | |
| Education Services | \$775,282 | | |
| Manufacturing | \$551,811 | | |
| Management of Companies and Enterprises | \$286,094 | | |
| Agriculture, Forestry, Fishing, and Hunting | \$268,133 | | |
| Accommodation | \$60,180 | | |
| Mining | \$53,795 | | |

8 Asheville 5x5: A Five-Year Plan for Job Creation

Venture Asheville Elevate Companies

Venture Asheville is a core service of the EDC that advances Entrepreneuship and Innovation in the Asheville area. Venture Asheville's program, Elevate, is supported by long-term relationships that founders build with a team of mentors. These experienced mentors guide entrepreneurs through the flection points of their startup journey. The program is based on M.I.T.'s Venture Mentoring System.

NEW EQUITY INVESTMENT SINCE 2015 \$102M

VENTURE 15 2015-2018 REVENUES

Venture Asheville reports on a calendar year basis

Average Wage represents the overall average of announced jobs.

Deposit Potential for Area Financial Institutions is calculated by utilizing the savings rate in Buncombe County for 2017 and multiplying labor income generated in the impact results.

Direct Effects report initial change. In this economic impact summary, the initial change is new jobs (labor income associated with new jobs). Jobs may include full time, part time, and temporary positions.

Disposable Personal Income is money that households have available for spending and saving after taxes. The estimate is calculated by utilizing a disposable income factor and multiplying labor income generated in the impact results.

Indirect Effects result from stimulated purchases of goods and services that support the initial change or direct effect. These are impacts of local industries buying goods and services from other local industries.

Induced Effects stem from household spending of labor income. The activity represents the spending of additional household labor income generated by direct and indirect activity.

Labor Income includes employee compensation, or wages and benefits paid to wage and salary employees, as well as proprietor income or profits earned by self-employed individuals.

Output is the value of industry production and is equal to Value Added plus monies spent purchasing goods and services to create an industry's production. Total Output may include instances of duplicative counting of goods and services at different points in the production stage, whereas Value Added does not.

Return on Investment equals labor income generated divided by total investment. Does not include construction impacts.

Value Added is the combination of labor income, other property type income, and taxes on production and imports less subsidies. Value Added is analogous to GDP (gross domestic product) for the region. Value Added + Intermediate Expenditures = Output.

11

EDC and Partners in Action

Notes: To produce economic impact estimates, the EDC utilizes Implan software and the most current data available specific to Buncombe County. All data reflects available and known quantities at a point in time. Margins of error may apply and adjustments may occur as new data is made available. Outputs and results of the analysis are estimates that provide supplemental information about projects but do not claim to capture every aspect of projects or their costs. This report is as of September 2019.
