to learn more about Outdoor Industry and Gear Production.

The Outdoor Industry is enmeshed with many sectors of the economy. The study highlighted how numerous outdoor manufacturing organizations pivoted to support the healthcare system in response to COVID-19. For example, WNC gear manufacturers were recognized for producing tens of thousands of PPE products using advanced technologies.

Economic Impact of Removing Outdoor Economy Jobs from WNC

-14,667 Jobs
Direct & Indirect Supported Jobs

-\$586M Earnings

One scenario suggests that if the 10,000 pinpointed jobs related to outdoor industries were removed from WNC, an additional 4,700 indirect or supported jobs could also be impacted, as well as associated \$586 million earnings for households.

WNC has established a growing outdoor industry cluster with supply chain, educational programs, and a talented workforce that has distinguished the region.
